ANYWHERE THE SOLUTION

Company History

SIRA S.r.l. was founded in 1977 and has more than 40 years of proud history in broadcasting and telecommunications RF equipment. Headquartered in Caponago, Italy, the company had developed into a leading manufacturer of broadcast equipment with installations in more than 120 countries. Throughout the years, the SIRA brand has become known for flexibility in engineering solutions, fast delivery and good quality at an attractive price. Since 1992 the company has belonged to the Kathrein group

but operated independently under the SIRA name. Only in 2015 we started to integrate SIRA operations with the Kathrein Broadcast activities. Since 2016 customers are able to buy both brands out of one hand. In 2019 the Broadcast business worldwide was carved out into the Kathrein Broadcast group. The Italian branch of Kathrein Broadcast is now named "SIRA Radio Systems S.r.l." to pick up on the proud heritage of the SIRA brand.

Continuity and proven quality

Our SIRA engineering team is based near Milan, Italy. Since 2018, we have optimized our supply chain with our own centralized manufacturing that is subject to the notoriously rigorous Kathrein quality management system.

With this approach we have been able to maintain the values and virtues SIRA has stood for in the Broadcast market for more than 40 years: The creativity of our solutions combined with attractive economics, reliability and fast delivery.

CATALOGUE OVERVIEW & CONTACT

Unique designs

SIRA includes a full portfolio of UHF, VHF and FM antennas as well as combiners, all designed in Italy. The product line includes unique custom designs as well as proven standard designs, so the product line offers an attractively priced

alternative to customers who are looking for more choices, as well as customized project specific solutions. The SIRA portfolio is therefore complimentary to the traditional Kathrein Broadcast offering.
